

**Evolution**

FIRE FIGHTING • PPE • GAS CYLINDER

# EN3 FireExtinguisher

## Evolution History

1997

World-Safety Inc. was established in Zhejiang, China, Produce all kinds of valves at the beginning.

2006

The 2nd generation Leo.Ho joined in the company to greatly expand the fire extinguishers business abroad.

2016

Leo.Ho Set up the Evolution Ltd.and acquisition of World-Safety Inc.brand and assets.

2019

All Fire Extinguishers approved EN3-7 from Apragaz and NF.

2020

New production line for covid products. ffp2 mask approved Bsi and Prs.sold on-line(B2C) in EU market approx.40 mils of ffp2 mask and 10 mils of covid test between 2020 to 2022.Evolution Team accumulated a strong on-line business ability.

2021

It was a strategic turning point in Evolution's history,as Evolution acquired 49% of Nanjing Banqiao Fire Fighting Equipment Co.,Ltd.(BX Fire),the one who is the first factory produce high pressure cylinder in china from 1994.

2023

Now our main business:  
Fire Fighting / PPE / Gas Cylinder

# 28 1.5 51

Years Experience

Millions Capacity

Certificates

# BXFIRE

**BX FIRE has formally integrated into EvolutionFire Ltd.effective from Dec 31th 2021.**

## BXFIRE History

**Nanjing Banqiao Fire-Fighting Equipment Co.,Ltd.(BXFIRE)** was founded in 1995,it's the 1st factory produce CO2 FireExtinguishers in China.

The factory covers an area of 65000 square workshop,the annual productive capacity is 1.5 million sets of CO2 fire extinguishers.

All products are approved CE from TUV.

### **What are the benefits of the integration for our customers?**

By uniting the capabilities and resources of BX FIRE and Evolution as a consolidated entity,we can now offer a more range of FireExtinguishers,not CO2 FireExtinguishers only.

All FireExtinguishers are approved EN3 from Apragaz,NF and BSI,as well as MED from Apragaz.

### **What will change and what will stay the same ?**

The production address will be the same.

The certificate of gas cylinder will be still under the company "BX Fire".

The mail address keep @BXfire.com or @EvolutionSafe.com

The BX Fire website(www.BXfire.com) have migrated to [www.EvolutionCylinder.com](http://www.EvolutionCylinder.com)

# EN3 Fire Extinguisher Application Guide

Fires are classified into six groups: A, B, C, D, E, F.  
The grid below shows what type of fuels are involved in each class of fire, along with a key to which class fire different fire extinguishers cover.

							
Extinguisher agent	Colour	Wood, paper, textiles and other carbonaceous materials	Flammable liquids, petrols & spirits	Flammable gases (propane, butane)	Fires involving burning metals	Fires caused by an electrical fault where electric current may be present	Cooking oils and fats - e.g. olive oil or lard
Powder		✓	✓	✓	✗	✓	✗
Co2		✗	✓	✗	✗	✓	✗
Foam		✓	✓	✗	✗	✗	✓
Water		✓	✗	✗	✗	✗	✗
Wet Chemical		✓	✗	✗	✗	✗	✓
Class D Powder		✗	✗	✗	✓	✗	✗

Note: According to the standard BS EN 3, fire extinguishers in the United Kingdom as all throughout Europe are red RAL 3000, and a band or circle of a second color covering between 5-10% of the surface area of the extinguisher indicates the contents.
